INFORMATION SIGNS

Information signs with **HYBRYD** emergency light luminaires allows presentation of additional information in public spaces.

It is possible to perform single-sided or double-sided luminaires and mounting to the wall or directly to the ceiling. A wide range of mounting accessories is available.

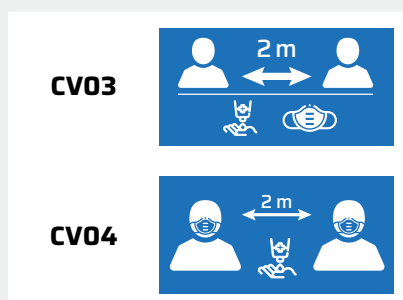

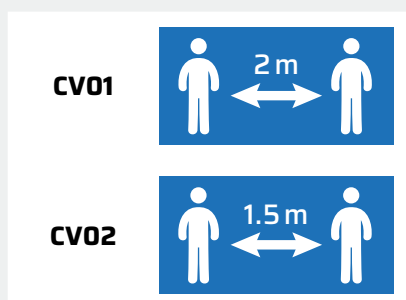

Thanks to the use of information signs with **HYBRYD** luminaires, they are possible to illuminate and connect them to a central or group power supply system.

Information sign visibility:

20x10cm		20m
30x15cm		30m
40x20cm		40m
